

“I Can’t”

We need them to succeed!

- * Perceived self-efficacy directly effects a student’s academic

Society demands creative, productive, civic minded citizens to meet the challenges in our future.

- * Perceived self-efficacy is frequently imposed by the ecological system around the student

“I Can’t”

We want them to succeed!

- * Perceived self-efficacy directly effects a student’s academic and social success

We care about our children and the students in our classroom.

- * Perceived self-efficacy is frequently imposed by the ecological system around the student
