

# Identify Case Study Subjects

- \* Review academic records
- \* Assess in class behavior and student products for signs of low self-efficacy
- \* Self-administered perceived self-efficacy survey of entire class
- \* Interviews with potential subjects

# Perform Interventions

- \* Perform teaching duties with high expectations for all students
- \* Perform interventions with case studies with high expectations
- \* Daily exit tickets for all students
- \* Take ethnographic notes
- \* Interview other teachers and guardians of case study subjects
